## Extension of Time Request Form - Summer 2024

The Extension of Time (EXT) policy is offered for students that, due to an extenuating circumstance at the very end of the term, may require a small amount of time after the end of the term to complete final, written coursework. Extended completion of coursework beyond the last academic day in the term is not permitted without an EXT approved by Academic Services within the Registrar's Office. A complete overview of the Extension of Time policy can be found on the HSS [Grades](#) web page.

1. An Extension of Time is first confirmed at the discretion of the course faculty. An EXT should only be confirmed if the student meets the following criteria:
  - Be in good standing in the course upon submission of the Extension of Time request: Students must have all coursework completed and submitted that was due prior to the course withdrawal deadline for the respective term. This includes completion of coursework that was issued an in-term extension by the faculty.
  - Only owe final coursework: This includes final work such as a final paper, a final take home exam, a final project, final presentation (depending on course policies), or a final problem set or small end-of-term assignment (originally due at the end of the term only).
  - Encounter an extenuating end-of-term situation: The situation must be encountered in the student's personal life, not related to academic course load. This includes academic responsibilities at HSS and/or combined with work or alternate academic endeavors. Most often, the EXT is approved to support students who encounter an acute illness at the end of the term, an unexpected emergency with family care, or extreme weather-related disruptions that prevent access to the final course meetings.
2. Students should confirm the final coursework due date of the respective Extension of Time request directly with the course faculty first. Students must complete and submit the final EXT coursework to their faculty by the respective term's due date listed below. Faculty may require an earlier deadline for the requested EXT coursework than the HSS final due date. Please be sure to denote the agreed upon due date in the corresponding field below.

**Final EXT Coursework Due Dates:**  
**Seven-Week Session: Friday, September 6, 2024**  
**Four-Week Session: Friday, September 6, 2024**  
**Three-Week Session I: Friday, July 26, 2024**  
**Three-Week Session II: Friday, August 16, 2024**
3. If students have met the eligibility criteria listed above for an EXT request, all sections below must be completed, signed, and dated by the student and their faculty. Completed forms should be sent by the student with their faculty open copied to [academicservices@extension.harvard.edu](mailto:academicservices@extension.harvard.edu) no later than the last academic day of the respective term. Please refer to our [Academic Calendar](#) web page for specific dates by term.
4. Academic Services will review the submitted EXT request to ensure that it is within the scope of the Extension of Time policy as outlined on our [Grades](#) web page and can be supported in full after the term concludes. Once reviewed Academic Services will send an email notification to the student and faculty with the EXT request decision and final details.
5. Students should not assume an EXT request is approved until confirmation is issued.
6. If your course ends in both a timed final exam and end-of-term coursework, you will need to submit both a Make-up Final Exam Appeal and this Extension of Time Request Form. This process can also be found on our [Grades](#) web page.
